As a Front-End Developer and Designer, my goal is to create seamless and beautiful experiences on the web! Having Full-Stack experience allows me to effectively communicate with Back-End software engineers and, as a trained designer, to collaborate with Product Management team members. I am an adaptive life-long learner and am dedicated being a reliable team member and active problem solver.

EDUCATION

Software Engineering Immersive
General Assembly, San Francisco
480 hours of Full-Stack
